About Me

I'm an experienced Frontend Developer with strong expertise in modern frameworks like React.js and Next.js. I have a proven ability to build responsive, scalable, and user-centric web applications that address real-world needs. With a sharp eye for detail and performance, I transform complex design ideas into seamless, interactive digital experiences. I'm a quick learner and thrive in collaborative environments, working closely with clients and cross-functional teams to deliver clean, maintainable code that aligns with both business goals and user expectations. Let's work together to bring great ideas to life through thoughtful, impactful web solutions.

Education

Ibnu Sina University | Graduated 2022 | Bachelor's Degree – Informatics Engineering

Work Experience

Frontend Developer

PT Lumoshive | 2022 - Present

- Developed and maintained scalable, high-performance frontend applications using React and Tailwind CSS.
- Collaborated closely with UI/UX designers and backend developers to deliver responsive and accessible user interfaces.
- Integrated RESTful APIs and implemented efficient state management solutions using Redux.
- Served as Frontend Team Lead on a major project, overseeing frontend architecture, setting coding standards, mentoring junior developers, and ensuring timely delivery of high-quality code.

Junior Frontend Developer

PT Pundi Mas Berjaya | 2021 - 2022

- Assisted in developing mobile-first web pages using HTML, CSS, and JavaScript.
- Contributed to component development within a React-based design system.
- Worked closely with QA to resolve UI bugs and ensure cross-browser compatibility.
- Participated in code reviews and sprint planning as part of an agile development team.

Projects

ERP System (Enterprise Resource Planning)

- Served as Frontend Team Lead in the development of a modular ERP web application using a micro frontend architecture, consisting of separate applications such as accounting, project management, control panel, and more. Responsible for designing the overall frontend structure, defining coding standards, coordinating module integration, and maintaining code quality. The project emphasized scalability, cross-team collaboration, and long-term maintainability.

GoWap CMS Website

- Built the user interface for the GoWap content management system using Next.js, in collaboration with Q2 Technology. Focused on performance optimization, and dynamic content handling. Involved in component architecture design, routing setup, and API integration.

Fotogrit CMS Website

- Developed a responsive CMS interface for Fotogrit, a digital creative platform, using React.js and Tailwind CSS. The project focused on delivering a mobile-first experience, reusable UI components, and a clean, intuitive interface for managing multimedia content.

Skills

- Languages & Frameworks: HTML, CSS, JavaScript, Typescript, ReactJs, NextJs, Tailwind CSS, Bootstrap, Redux Toolkit, TanStack, Shadcn.
- Tools & Platforms: Git, GitHub, GitLab, VS Code, Postman, Figma, REST APIs, NPM, PNPM.
- Soft Skills: Problem-solving, teamwork, attention to detail, communication, time management.
- Other: UI/UX principles, Agile & Scrum methodology, Responsive Design, Component-based Architecture.
